Look What You Can Do...

It's not what's on your printer that's important, it's what your printer prints on!
OKI's A4 Colour Range have the most flexible paper handling of any colour printer in class.

Stationery

Our printers help businesses to save money by doing things other manufacturer's machines can't.

Save time, money and no waste

Letterhead/Compliment slips - printed as you use them

Business cards – instant changes of details

PowerPoint slides – handouts as seen on screen & printed fast

Excel sheets – get the details across with colour

CD packaging – professional appearance

Business Activation

Mono documents have less value, lower retention, low impact. Colour documents are higher value, greater retention, easier to understand.

Communicate and motivate

Tenders – stand out from the crowd

Point of Sale – special offers, changing on demand

Timetables – complete information colour coded

Marketing Services

For high-impact communications that have a lasting effect.

High quality communications

Loyalty cards/Promotions – dynamic & instantaneous

Wristbands – for identity, safety & security

Brochures/Flyers – targeted and colourful

Banners – eye-catching and memorable

Signage

Printers that handle media for signs and posters both indoors and outdoors.
Demanding environments need colourfast permanent print.

Professional printed labels and signs for hundreds of uses

Health & safety – labels & permanent signs

Directional signs – outside all weathers

Security passes – secure identification

Horticultural labelling – colourfast without fading, season after season

Rigid signs – professional and long-lasting

...Look How You Can Do It

The ultimate business printing package - only from OKI Printing Solutions

The Right Software

Template Manager 2006

OKI Printing Solutions believe users should focus on their in house colour documents, not worry about how to print them. Template Manager takes care of the printer settings so you can't go wrong.

Template Manager is adept at handling non-standard paper as well as OKI's range of specialist media to make achieving great results easy and designed so that everyone can use it.

The Right Media

Specialist media for all your specialist applications

Paper or plastic, rigid or flexible, small or large - no other printer manufacturer can supply or print on so much.

The Right Printer Range

Only OKI Printing Solutions can do it all

A range of printers designed to be sensible to buy and run, from colour enabled mono printers for occasional targeted colour to robust colour and mono workhorses designed to power through volume economically.

The Right Toner

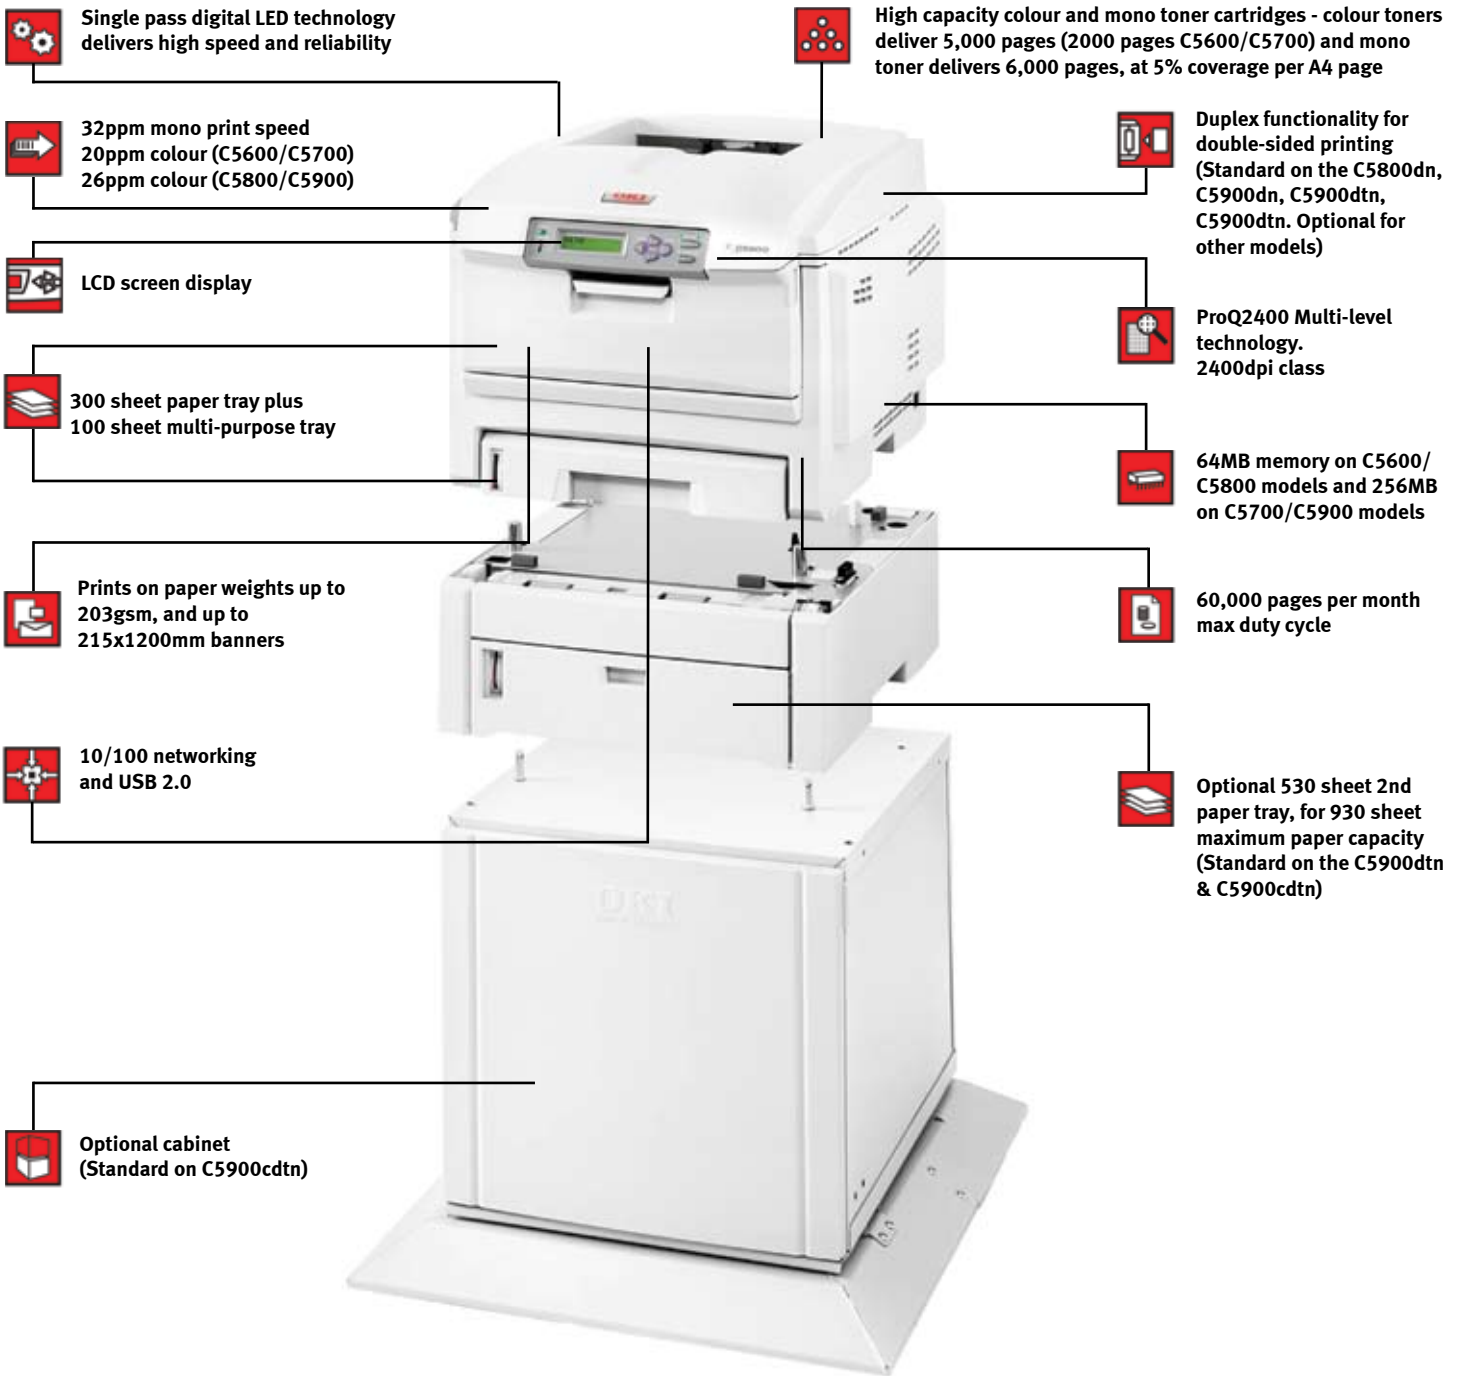

OKI High Definition toner

OKI's own ProQ technology gives up to 4 times the picture resolution of standard 600dpi colour lasers coupled with HD toner produces the sharpest images and most vibrant colours.

OKI Printing Solutions C5000 Series

OKI's A4 colour range offers the speed, quality and dependability of mono laser printers, plus all the benefits of colour to allow small business workgroups to meet all of their business printing requirements.

Which is the right A4 colour product for you?

One of the main buying criteria for purchasing a colour printer is the overall costs of ownership over the life of the printer, generally lower cost printers are more expensive to run, to help understand which OKI product would be the most economic over a 36 month period we have put together the following guideline:

Fast Windows-based printing	
Pages per month	Model
< 90	C3400
90 - 330	C5600
> 330	C5800

Fast non-Windows printing	
Pages per month	Model
< 340	C5700
> 340	C5900

OKI Printing Solutions C3000 Series

The compact OKI Printing Solutions C3000 Series delivers the speed, quality and dependability to allow an individual or small business workgroup to meet all of their colour and mono printing requirements.

 16ppm colour/20ppm mono print speed on C3400n. 12ppm colour/16ppm mono on C3300n

 35,000 pages per month maximum duty cycle

 High Definition toner (toners deliver 1,000 pages at 5% coverage per A4 page)
Low cost toner cartridges

 Single-pass digital LED technology delivers high speed and reliability

 ProQ2400 Multilevel technology
2400dpi class

 10/100 networking and USB 2.0

 Multi-purpose tray for printing on paper weights up to 203gsm, and up to 215 x 1200 mm banners (C3400n) only

 250 sheet internal paper tray prints A6 to A4

Class-Leading Paper Handling

OKI's A4 colour range is so versatile you can print on a variety of media thicknesses. Add to this the ability to print any size from A6 to 1.2 metre long banners* on a variety of specialist papers and pre-creased card, you can see why the competition is left standing.

*Not C3300

Robust Dependability

Our market-leading expertise in single pass digital LED technology means that the C3000 Series boasts a robust duty cycle of 35,000 pages a month and the C5000 Series, a duty cycle of 60,000 pages. Single pass digital LED is inherently more reliable than four pass laser with fewer moving parts and fewer paper jams thanks to its straight paper path.

Class-Leading Speed

OKI colour printers not only outperform other models in the market, their monochrome performance also beats most A4 mono devices.

Low Running Costs

OKI recognises that running costs are a key consideration when purchasing a colour printer. Our range offers a suitable choice for all - with compatible mono cost-per-copy, and highly-competitive colour print costs. From the C3000 Series for low print volumes to the C5800/C5900 for demanding workgroups printing in excess of 350 pages per month - the OKI A4 colour range offers the best quality and running costs.
